The cost of the tender document should be paid in form of DD in favour of Executive Engineer R.V.S.K.V.V., Gwalior in separate envelope mentioning “cost of tender form”.
The R.V.S.K.V.V., reserves the right to reject any or all tenders without assigning any reasons there of, University will not responsible for any postal delay The Demand Draft of any scheduled commercial bank payable on its local branch in favour of the Executive Engineer, RVSKVV , Race Course Road, Gwalior (MP) in acceptable.

2- **RATES** :-

2.1 **Concept Drawings & Scope of Work** :

The drawings enclosed in the TENDER are scope drawings. Drawings having plinth area 60 Sqm. for soil library building and 950 Sqm for faculty room constructions are intended to give the tenderer an idea of work involved. These drawings are only indicative and for use prior to tendering only. They indicate general layouts only. However, the actual location distances shall be governed by field conditions. The bidder shall check at his own and all the drawings of connected utilities, so as to avoid possible conflict. Any discrepancies found in the drawings and the field conditions shall be immediately brought to the notice of the Engineer in-charge for decision. The Concept drawing on which work to be executed is enclosed as **Annexure- A**.

The work include **Construction of Soil Library Building using Prefabricated Technology with either continuous PU Sandwich Panel or Solid cement board foam concrete Sandwich Panel with complete in all respect as per enclosed concept drawing** including Water Supply, Sanitary Fitting & Electrification at various places in Madhya Pradesh as per details mentioned in scope of work.

2.2 **Lump sum Tender Rates (Turnkey basis)**

2.2.1 Lump sum contract value on turn key basis, on tenderers own design, based on concept drawing provided by department should be expressed at appropriate place on the financial tender both in words and figures in such a way that interpolation is not possible and all incorrect words should be neatly scored out and rewritten and the corrections should be duly attested prior to the submission of tender.

2.2.2 The rates quoted in the tender shall be for the finished items of complete work on turnkey basis. This shall include all charges required for laborers, materials, storage of materials, transportation of materials and equipment. Water and meter charges, temporary accommodation and plumbing works for laborers, tools and plants, making out and cleaning of the site, curing of various items of the work where cement has been used by keeping them constantly moist for such periods as stated in the relevant specifications and to do all things necessary to provide complete finished items of work in consistent with the drawing & design of tender inclusive of sales tax, Vat or other duties or fees levied by any government, public or local bodies.

2.2.3 Tenders not specifying contract value in words their offer shall, summarily, be rejected.

2.2.4 If the contract value quoted by the tenderer differs in words and figures, the lower of the two shall be considered.

2.3 **Lead and lift of water** - No lead and lift for water shall be payable.

2.4 **Lead and lift of material**- No lead and lift for material shall be payable.

2.5 Tenderer has to arrange his own power supply for construction work. If it is provided by the Department suitable deduction shall be made from the bill as worked out as per prevailing tariff.

2.6 **Extra Items** - For any extra items, the contractor shall carry out the work as per the instructions of the Engineer In-Charge. The rates for such items shall be worked out by the engineer in-charge considering all the aspects, which shall be binding to the tenderer.

- 2.7 Before tendering the tenderer shall visit the site on his own and also carefully examine all aspects in relation to work and tender. If any ambiguity or discrepancy is found, he shall refer to the Engineer in Charge. The submission of the tender shall be regarded as signifying acceptance of the tenderer for the instruction specifications conditions of the contract.
- 2.8 The tenderer shall make his own necessary arrangements for loading/unloading and transportation of the building components at the suitable place on site. The tenderer shall remain solely responsible for making the arrangement for watch and ward of the component and other construction materials at his own cost.
- 2.9 The tenderer, if required by the department shall have to submit detailed computation and break-ups of cost to arrive to figures of overall costs.
- 2.10 The time of completion of job is essence to this contract. The contractor is therefore, requested to complete the job in the stipulated time. In case of any deviation with respect to time or specification, the same shall be decided as per relevant clause of the agreement.
- 2.11 The contractor shall be entitled to receive payment intermittently on the basis of the actual work executed approved/certified by the Engineer in charge subject to deductions as mentioned in payment schedule given in agreement as **Annexure- H**.
- 2.12 The contractor shall be responsible for making good any defect which may be observed during defect liability period after handing over the premises into beneficiary use expeditiously and in accordance with good industry practice. In case contractor fails to do so, the same would be got done at his Risk & cost. The extra cost incurred on completion of above defective work will be solely recoverable from the various deposits and dues of the contractor and in case of shortfall through Arrears of Land Revenue.

3. **SUBMISSION OF TENDER :-**

3.1 **Technical Qualification**

The firms will be first declared eligible on the basis of the Technical Evaluation carried out by on the basis of technical bid submitted in envelope B.

- 3.2 **Earnest Money Deposit** - The applicant shall have to deposit an earnest money deposit of amount specified in the Data Sheet, in the form of FDR of any Nationalized Bank/Scheduled Bank in favour the mentioned in the Data Sheet in envelope A. This should be kept in a separate envelop, if EMD is not found proper then the proposal shall be treated as non responsive and shall not be evaluated further and hence shall be rejected.

- 3.3 **Adjustment of Earnest Money** - Earnest money, which has been deposited for a particular work, will not ordinarily be adjusted towards the earnest money for another work. But if the tender of a tenderer for a work in the same division has been rejected and the earnest money has not been refunded though it was due for refund, it may be adjusted against this work by prior approval of the Executive Engineer, RVSKVV , Race Course Road, Gwalior (MP).

3.4 **Implication of Submission of Tender** –

Tenderers are advised to visit site sufficiently in advance of the date fixed for submission of the tenders. A tenderer shall be deemed to have full knowledge of the relevant documents, samples, site, quarries etc. whether he inspects them or not.

3.5 Submission of Tender - Submission of tender implies that the tenderer has read the tender notice, conditions of tender and all other contract documents and made himself aware of the standards, specifications of the work to be done and the specifications as laid down for Building works with Prefab technology. The tenderer should satisfy himself regarding the suitability and availability of site of work etc. as also the suitability and availability of the material at the quarries. The responsibility of opening new quarries, construction and maintenance of approaches thereto shall lie wholly with the contractor.

Tenders in three envelopes system shall have been delivered to **The Executive Engineer, RVSKVV, Race Course Road, Gwalior (MP) till Date 04/01/2012 upto 05:30 P.M.** by registered A.D. only. If the office happens to be closed on the due date of receipt of the tenders as specified, the same will be received on the next working day at the same time and venue.

Three envelopes as mentioned below shall be kept in a large outer envelope, which shall also be sealed. Name of the work and due date of receipt of tenders shall be prominently written on the outer envelope.

- (a) **1st envelope "A" containing the Earnest Money Deposit.**
- (b) **2nd envelope "B" containing the Technical Bid and Work Experience**
- (c) **3rd envelope "C" containing the Financial Tender and terms and conditions of agreement. No additional conditions other than mentioned in form F shall be entertained.**

3.6 Validity of Tender - Tender shall remain valid upto 120 days from the date of submission of tender and in the event of the tenderer withdrawing the offer before the aforesaid date, for any reason whatsoever, earnest money deposited with the tender shall be forfeited by the Executive Engineer.

3.7 Relationship - A tenderer shall not be permitted to tender for works in (responsible for award and execution of contracts) in which his near relative is posted as Divisional Accountant or as an officer in any capacity in the grade of Executive Engineer. A list showing the names of the persons who are working with the contractor and are near relatives to any Gazetted Officer in the Public Works Department should also be appended to the tender. He should also intimate to the Executive Engineer the names of subsequently employed persons who are near relatives to any Gazetted Officer in the Public Works Department or Divisional Accountant in the Division. Any breach of this condition by the tenderer would render him to be debarred from tendering in future.

Note: The term "near relative" means, wife, husband, parents, son, grandson, brothers, sisters, brother-in-law, father-in-law and mother-in-law.

3.8 The tender for the work - shall be witnessed. Failure to observe this condition shall render the tender liable for rejection.

3.9 Unsealed Tender - The tender shall be returned unopened to the tenderer if not properly sealed.

4- OPENING AND ACCEPTANCE OF TENDERS :-

4.1 Place and Time of Opening - The tenders shall be opened at the time and place, mentioned in the Data Sheet, by the Executive Engineer ,RVSKVV, Gwalior in the presence of the tenderers or their duly authorized representatives who may choose to be present.

The envelopes containing EMD and Technical Bid will be opened in the office of Executive Engineer PIU Gwalior on 05/01/2012 at 3.30 P.M. If the office happens to be closed on the date of opening of the technical qualification as specified, the tenders will be opened on the next working day at the same time and venue.

Envelopes for tender documents shall be opened in the following order:-

- (i) Envelope containing earnest money deposit. If the earnest money deposit is not found in the mode prescribed in clause 3.2 of NIT the envelopes containing Technical/financial tender shall be returned unopened to the tenderer or kept unopened in absence of tenderer.
- (ii) Envelope containing Technical bid and work experience shall be opened after the EMD is found in order and the same shall be evaluated as per work experience and financial criteria spelt out in NIT
- (iii) Financial tenders of the eligible tenderers after scrutiny of technical bid shall be opened at **The Office of Executive Engineer, RVSKVV, Gwalior** within a weeks time in the presence of tenderers or their authorized representatives who may choose to be present and the communication to this effect shall be sent to all eligible bidders after technical evaluation.

4.2 Powers of Executive Engineer - The Executive Engineer does not bind himself to accept or recommend for the acceptance by the competent authority, the lowest or any tender or to give any reason for his decision.

4.3 Conditional Tender - Conditional tenders are liable to be rejected.

4.4 Canvassing - Canvassing or support in any form for the acceptance of any tender is strictly prohibited. Any tenderer doing so will render himself liable to penalties which may include removal of his name from the register of approved contractors or penal action under section-8 of the M.P. Vinirdishta Bhrashta Acharan Nivaran Vidheyak, 1982 and Rules 1988.

4.5 Refund of Earnest Money Deposit - The Earnest Money of the unsuccessful tenderers except L-2 shall be refunded to tenderer as decided by Executive Engineer within a reasonable time. The Earnest Money of the bidder found L-2 shall only be refunded to him after signing of agreement by L-1.

5- SPECIFICATIONS :-

- 5.1 **Material of Construction** - *The materials of construction to be used in the work shall be governed by the provision of the National Building Code of India, 2010 and the relevant Indian Standard Specifications with amendments and revisions issued up to the date of tender notice.*
- 5.2 **Workmanship** - The work shall be carried out according to the specification referred to hereinafter and according to sound engineering practice. The decision of the Executive Engineer in respect of workmanship will be final.
- 5.3 **Specification for Building Works** - (including water supply and sanitary fittings).
- 5.3.1 The contractor shall execute the work in conformity with the standards and procedure laid down in the National Building code of India, 2010 and as per C.P.W.D. specification or specifications in force or special specification whenever enclosed separately, and in accordance with the approved drawing.
- 5.3.2 **Concrete** - All concrete shall be mixed in concrete mixers and compacted by mechanical Vibrators. Slump test shall be carried out during Concreting and sample test-cubes prepared and tested in due course. The testing will be carried out by the Department. The results of the tests shall conform with the required standard and if the Engineer-in-Charge considers that a structural test is necessary, the same shall be carried out as per instruction by the Engineer-in-Charge at the contractor's expenses and should the result of this be unsatisfactory the contractor will be bound to take down and reconstruct the particulars portion of work which has given unsatisfactory test result.
- 5.3.3. All timber used in the wood-work for all new works must be properly seasoned. In case of important Building mechanical seasoning should be done in good seasoning Plant. In case the contractor does not procure good seasoned wood, he may be asked to get it seasoned in plant at his own expense but no certificate is required where no additional rate is paid.
- 5.3.5 **Maintenance of Roofs** - Subject to the provision in the agreements, it will be the responsibility of the contractor to see that the Building does not leak during the period of **Five Consecutive years** after its completion and he will make good and replace all the defective work on this account.
- 5.4 **Specification of Electrical Works**
- 5.4.1 The works will be carried out as per the approved drawing and as directed by the **Engineer in charge** The work will be governed by 'General Specifications' for the Electrical works in Government Building in Madhya Pradesh in force from 1972 and IS – Specification.
- 5.4.2 All samples of electrical accessories should be got approved from the Engineer-in-Charge. The Contractor will have to arrange and afford all facilities for their inspection and rectify the defects pointed out by them.
- 5.4.3 The period of testing **will be 24 months after completion of work.**

5.4.4 In case of supply of ceiling fan, table fan, exhaust fan, cabin fan, tube light fixture is made by the tenderer, as mentioned in the attached schedule.

5.4.5 The contractor should submit wiring diagram on tracing cloth showing the point position of switch, length of point, position of D.B. and main switch circuit no in which points fall at the time of final bill. Otherwise deduction of 1/2 percent (half percent) will be made from the bill.

5.5 Contradictions Or Amendments - In the event of contradictions between different specifications and or Codes of Practice, referred to above, the decision of the Engineer-in-Charge shall be final, subject to appeal in case of dispute before the Chief Advisor (Civil) as provided in **clause-7** of the conditions of contract.

6- Quality Control Test -

6.1 Quality control tests shall have to be conducted by the contractor under the supervision of the Engineer-in-charge or his authorized representatives.

6.2 The work shall not be accepted in any case, if the contractor fails to observe the instructions of the Engineer-in-Charge, regarding mandatory testing of material as specified in **Annexure - D**.

6.3 Before making any payment, it will be the responsibility of the Engineer-in-Charge to ensure that all the tests at prescribed frequencies thereof have been carried out, and found as per requirement.

6.4 If tests are not conducted to the prescribed frequency, the Engineer-in-Charge shall reject that part of the work.

7- MISCELLANEOUS CONDITIONS :

7.1 Post Tender Subletting – Subletting of components of work under the contract only up to plinth level and electrification works shall be limited to 25% of the contract price. The contractor, whose tender is accepted, may request in writing duly supported by the documents prescribed in format of technical qualification- **Annexure-C**, regarding the sub-contractor to whom the subletting is proposed. The Chief Advisor (Civil) may approve such subletting up to an amount equal to 25% of the contract price including subletting, if any, approved by the tender accepting authority.

Where such approval for subletting is granted, the contractor shall, however, not be relieved of any obligation or duty or responsibility, which he undertakes under the contract.

7.2 Taxes - All dues regarding taxes, including the commercial tax, labour cess, royalties and income tax on the contractor's work will be payable by the contractor up to the completion of work.

7.3 Fair Wages - The contractor shall pay not less than fair wages to labour engaged by him on the work (Rules enclosed vide **Annexure-E**).

- 7.4 **Works In The Vicinity** - The Executive Engineer, RVSKVV reserves the right to take up departmental work or to award work on contract to other agencies in the vicinity without prejudice to the terms of contract.
- 7.5 **Removal Of Undesired Person** -The contractor shall on receipt of the requisition from the Executive Engineer, PIU PWD, at once, remove any person employed by him on the work, who in the opinion of the Executive Engineer, RVSKVV is unsuitable or undesirable.
- 7.6 **Amount Due From Contractor** - Any amount due from the contractor on any account concerning work may be recovered from him as arrears of land revenue.
- 7.7 **Tools And Plants** - The contractor shall arrange at his own cost, tools and plant required for the proper execution of the work.
- 7.8 **Time Schedule** - The work shall be done by the contractor according to the time schedule fixed by the Engineer-in-Charge.
- 7.9 **Time Of Contract** - Time allowed for carrying out the work as entered in the Detailed Notice Inviting Tenders shall be strictly observed by the contractor and shall be reckoned as defined in **clause 13** of the conditions of the contract.
- 7.10 **Payment By Cheque** - The payment for the work done will be made by cheque and by e-payment, Bank commission charges on releasing such payments through demand draft on the request of the contractor will be borne by him for e-payment contractor to submit to his Bank details.
- 7.11 **Acceptance of Tender** - The authority competent to accept the tender reserves the right of accepting or rejecting the tender .
8. **Agreement and Work Programme :-**
- 8.1 **Execution of Agreement-** - The tenderer, whose tender has been accepted, hereinafter referred to as the contractor will execute the agreement in the prescribed form, within a fortnight of the date of communication of the acceptance of his tender by the Executive Engineer.
- Failure of the successful tenderer to comply with the above requirements shall constitute sufficient grounds for cancellation of the award of work and forfeiture of the earnest money deposit.
- 8.2 **Construction Programme:** The contractor shall submit a detailed day-wise construction programme within **3 days** of the notice to commence the work. The programme may be reviewed and revised every week.

If progress of a crucial item of work, which is important for timely completion of work, is unsatisfactory, the Engineer-in-charge, notwithstanding that the general progress of the work is satisfactory, be entitled to take action under **Clause 13** of the contract after giving **10 days** notice

in writing to the contractor and the contractor shall have no claim for compensation for any loss sustained by him owing to such action

9. Security Deposit –

- (a) **Performance Security** - Within 10 (ten) days after receipt of the Letter of Acceptance, the successful Bidder shall deliver to the Employer a Performance Security of five percent of the Contract Price, for the period of five years and the time for completion of works plus additional security for unbalanced Bids.
- (b) Security deposit shall be deducted from the running account bills @ 5% till the amount of security deposit and performance security deposit together is equal to **10%** of the total value of work done or amount of contract whichever is more.
- (c) Security deposit to the extent of 50% shall be refunded to the contractor after 36 months from the date of issue of completion certificate after observing no defects and balance 50% after rectification of defects, if any, noticed during the Defect Liability Period and issue of “No Defect Liability Certificate” by engineer-in-charge as given in **Annexure – N**.
- (d) The Authority, may on the request of the contractor allow the replacement of the amount recovered from running bills by Demand Draft / FDR / TDR / NSC, pledged in favour of Executive Engineer RVSKVV Gwalior Or Bank Guarantee in the format given in **Annexure – L**, valid until a date 45 days from the date of expiry of the defect liability period. In case contractor furnished security deposit in the form and manner stated above in advance no deduction will be made from running bills. Bank Guarantee should either be from a local branch or Scheduled Commercial Bank and countersigned by the local branch of the Bank.

Bank guarantee for security deposit may be submitted as under,

For 50% amount valid for 36 months from the scheduled / actual date of completion, which ever is later.

For balance 50% amount – valid for 45 days from the date of expiry of defect liability period (60 months).

10. Technical Personnel

- (a) The contractor shall employ technical personnel as detailed in **Annexure - F** during the execution of work.
- (b) The contractor should give a certificate that the Engineers / Diploma holder Engineers are exclusively in his employment.
- (c) The retired Assistant Engineer who is holding a Diploma may be treated at par with the Graduate Engineer for the operation of this clause.

11 Special Condition of Tender:

11.1 Defects Liability :-

"Defect" means any item of the work not completed in accordance with the specifications as per **Clause 10** of contract agreement.

The **"Defects Liability Period"** is **Five years** calculated from the date of actual completion as mentioned in completion certificate issued by Engineer-in-Charge as per **Clause 10** of contract agreement and additional **45 days** for inspection of work by the Engineer-in-Charge.

"No Defect Liability Certificate" in the form appended with the conditions of contract shall be issued by the Engineer-in-Charge, after expiry of the Defect Liability Period of 5 years and additional 45 days for his inspection and upon rectification of defects, if any, by the contractor.

Performance and defect liability guarantee period of works is 60 months from the date of actual completion of work. An amount equal to 10% of final bill paid to the contractor will be kept as security during the guarantee period. Out of this 5% will be deposited at the time of agreement as performance security and 5% will be deducted as security deposit from the bills. If any kind of defect in construction work is found during the defect liability period, it would be rectified by the contractor at his own cost within 15 days from the date of notice in writing of the Engineer-in-charge. If the Contractor fails to rectify the defects within 15 days, the Engineer-in-charge shall get it repaired or rectified at the cost and risk of the contractor. The amount of the expenses on repairing or removal of such defect of the work (for which the certificate of Engineer-in-charge shall be final) shall be adjusted from the 10% amount deposited by the contractor. After **five** years during the inspection of Engineer-in-charge, if quality of construction work is found satisfactory, remaining amount of deposit shall be refundable on issue of no defect certificate from the engineer-in-charge. If amount of repairing the work and rectification of defects is in excess of the amount of security deposit, than such excess amount shall be recoverable form the other dues of the contractor or as arrears of Land Revenue.

11.2 Liability of contractor for maintenance after taking over of completed work:

The contractor shall be responsible for maintenance of building during defect liability period. The maintenance include.

11.2.1 Repairs to fixtures and fastenings of doors, windows & ventilators.

11.2.2 Repairs to frames and shutters to doors, windows and ventilators and maintaining doors, windows operatable.

11.2.3 Repairs and replacement of sanitary and water supply fittings and repairs to water leakage and damp in walls and joints of water supply and sanitary lines.

11.2.4 Repairs to floors.

11.2.5 Maintenance, Repairing or Replacement of electrical items, against only manufacturing defects, bad workmanship defective materials but not replacement of electrical lamps, tube rod and bell.

- 11.2.6** It is clarified that the maintenance liability does not include running expenses of water pumps, electrical motors or consumable articles for rendering utility services.
- 11.2.7** The complaint Book will be maintained in the specified quarter / office and the occupants / tenants will lodge their complaints in this book about necessity for above maintenance. Contractor will attend to such demand within fifteen days from date of complaint in the complaint book. If the contractor does not attend to maintenance as above, the authorized representative of the department will give registered Notice to attend the same within fifteen days from the date of notice. If the contractor still fail to attend to maintenance. The maintenance work will be carried out from the amount of security deposit retained for this purpose. The last installment of security deposit (remaining five percent) will be released only on production of the certificate of Executive Engineer about no defect and satisfactory maintenance of buildings and required under this clause in prescribe Format.
- 11.3** The agency is required to carry out all the necessary design work of their own and shall be responsible for any defect or shortcoming if noticed during and after execution. This includes the requisite soil investigation, relevant foundation work, fabrication, installation and commissioning of work. At every stage necessary checking /verification shall be got done by engineer-in-charge on their behalf however, entire responsibility in all way shall be that of the bidder.
- 11.4** RVSKVV reserves its right to get the design verified and approved through any other Govt. approved institution / authority / consultant of their choice and the agency shall be required to cooperate in furnishing all details required for verification and certification, if need be. In such case the charges for verification shall be borne by the bidder.
- 11.5** The agency shall be required to substantiate the offer with documentation for such works actually executed satisfactorily during last five years by them.
- 11.6** All general condition as prescribed in the tender document of the RVSKVV stands applicable, except wherever modified.
- 11.7** For the respective Items where specifications are not mentioned in the certified drawing, those specified in General Technical Specification booklet of the NBO shall apply.
- 11.8** All work shall be carried out as per general specifications & relevant I.S. standard attached separately.
- 11.9** The Agency shall be required to submit the approved Five set of drawing prior of commencement of the work. Agency shall be required to get the basic materials and finished product units tested as per direction and frequency previously approved by the engineer-in-charge.
- 11.10** It is advisable for the agency to visit each site of work before quoting – All managements & expenditure for accommodation, light (Power Supply), water, site clearance and preparation for temporary approach to site etc. shall be the responsibility of contractor and rates quoted shall include for the same. No extras overheads what so ever shall be considered by the department.
- 11.11** For the design of foundation, Soil Investigation including arriving at SBC value at every location shall be got done by the bidder and the foundation shall be designed accordingly.
- 11.12** Only the ISI mark TMT fe 415 Steel to be used shall be of TATA, SAIL, SANGHI, PARI, MALHOTRA, VIZAG, SHARDA ISPAT, ELECTRO PLUS, Electro therm PARMESHWAR (GOD) or BURNALA PLUS shall be used conforming to IS 1786.
- 11.13** Only the ISI mark OPC 43 grade cement of approved make shall be used.

- 11.14** All electrical wiring / conductors, accessories etc. shall be of copper as per relevant IS codes and Indian Electricity Rules.
- 11.15** The electrical Contractor, which is attached with the civil contractor, must have valid registration of appropriate category of Electrification work and valid license from Energy Department and Madhya Pradesh Anugyapan Mandal (Electrical) Gwalior.
- 11.16** All materials to be used shall be environment friendly.
- 11.17** All fabrication, erection and construction shall be carried out under the supervision of experienced and qualified Engineers.
- 11.18** Erection to the structure shall be taken up as per directions of Engineer – In – Charge. Any kind of failure damage injury shall be the sole responsibility of the bidder.
- 11.19** Bidding for the complete Turnkey project of all the works as per enclosed drawings **shall** be considered. No part bidding of the project shall be permitted.
- 11.20** Testing frequency of prefab product shall be proposed by the bidder and concurred by RVSKVV. Testing frequency of rest of materials shall be as per general Technical specifications of CPWD.
- 12. An affidavit shall be submitted in prescribed form (Annexure - G)**
- 13. Conditions Applicable For Contract - All the conditions of the N.I.T will be binding on the contractor in addition to the conditions of the contract in the **Tender Form – F****
- 14.** The Contractor may have to dismantle and reconstruct with his material a new structure at a new place for which dismantling charges and cost of transportation loading/unloading will be paid to the contractor as per SOR rates for these items stated in SOR of building works issued of E-in-C PWD w.e.f. 15/06/2009. The labour cost of reconstruction to new place will also be payable to contractor on rates settled by DPE as per provisions of the extra items of works described in the agreement.

Following documents annexed with this N.I.T. shall also form part of the Contract:-

1. Data Sheet
2. Annexure – **A1** Concept drawing of Soil Library
Annexure – **A2** Concept drawing for the prefabricated Building on terrace of Agriculture collage at Gwalior
3. Annexure – **B** Approximate Schedule of Quantities
Annexure – **B1** Construction In B.C. Soil Area
B2 Construction of Soil Library In other than B.C. Soil Area
B3 Approximate Schedule of Quantities for the prefabricated Building on terrace of Agriculture collage at Gwalior
4. Annexure – **C** GENERAL SPECIFICATIONS OF ITEMS OF WORK TO BE EXECUTED
5. Annexure – **D** Mandatory Tests and Frequency thereof.
6. Annexure – **E** Contractors Labour Regulations
7. Annexure – **F** Technical Personnel
8. Annexure – **G** Affidavit
9. Annexure – **H** Payment Schedule
10. Annexure – **I** Time Frame for execution of Work.

11. Annexure – **J** Joint Venture Data

Guiding Schedule of Items

12. Annexure – **B-1** For Civil works & Electrical works. (Prevailing MPPWD, SOR)

13. Annexure – **B-2** Civil works & Electrical works. (Prevailing MPPWD, SOR)

14. Annexure – **L** Format for Bank Guarantee of Performance Security

15. Annexure – **M** Format for Bank Guarantee for Mobilization Advance

16. Annexure – **N** Format for No Defect Liability Certificate

**Executive Engineer
RVSKVV,
Race Course Road, Gwalior**

DATA SHEET

Name of Work:- Construction of **Soil Library Building and faculty rooms using Prefabricated Technology with "continuous PU Sandwich Panel" or "Solid cement board foam concrete Sandwich Panel** at various places in Madhya Pradesh based on concept drawing including water supply, sanitary fitting & electrification
SOIL LIBRARY BUILDING IN PLACES OF HARD SOIL AREAS (WITH PROVISION OF OPEN FOUNDATION) AT GWALIOR/ MORENA

1	Completion period for construction	90 days (including rainy season)
2	No. and Date of Issue of Notice Inviting Tenders	
3.	Place and Dead Line for sale of tender documents	By web site up to 31/12/2011 on any working day (up to 5:30 PM)
4	Deadline for receiving tenders & Place	Date : 04/01/2012 Time : up to 05:30 PM
5	Time and Date of opening envelopes of Earnest Money Deposit and Technical offer	Date : 05/01/2012 Time : at 3:30 PM
6	Place of opening envelopes of Financial offer	Office of the Executive Engineer, RVSKVV , Race Course Road, Gwalior (MP)
7	Validity of Tender	120 days from the date of submission of tender
8	Cost of Tender Documents	Rs. 2000.00 (Two thousand only)
9	Earnest Money Deposit	Rs. 45000.00
10	Submission of Tender	It shall be submitted in two separate envelopes as under : (a) Earnest Money Deposit "A" (b) Technical Bid document "B" (c) Financial offer shall be kept in envelop "C". (d) All the three envelopes shall be kept in an outer envelope. All these envelope shall be clearly marked as follows for each work. (i) Outer envelope to be marked as outer envelope for Name of work. (ii) EMD envelope A placed in outer envelope be marked as Earnest Money Deposit for the work:- (iii) Technical bid offer envelope B placed in outer envelope be marked as Technical Offer & (iv) Financial offer envelope C be marked as Financial offer Tender document for the work:-

ANNEXURE -A

(as referred to in Para 2.1 of DNIT)

Concept Drawing

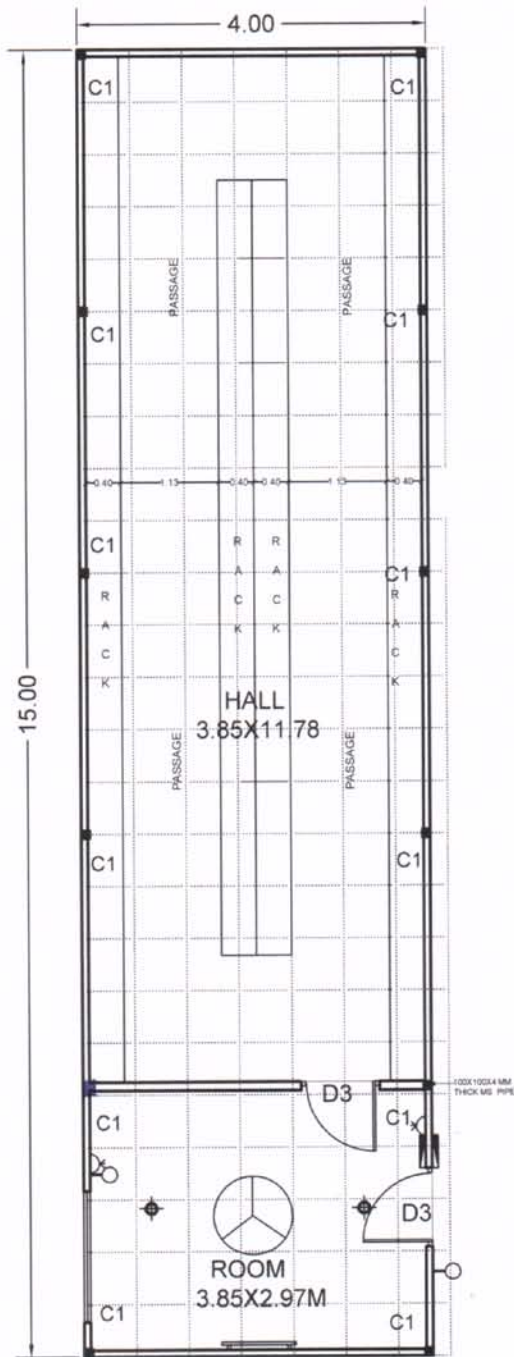

Name of Work : Construction of **Soil Library Building using Prefabricated Technology with "continuous PU Sandwich Panel" or Solid cement board foam concrete Sandwich Panel** based on concept drawing including water supply, sanitary fitting & electrification

1- For Places of Non B.C. Soil Areas

Construction of Soil Library In other than B.C. Soil Area

Approximate Schedule of Quantities

S.N	ITEM DESCRIPTION		Qty.
1	Surface dressing of the ground including removing vegetation and in-equalities not exceeding 15 cm deep and disposal of rubbish, lead up to 50 m and lift up to 1.5 m. 2.1.1 All kinds of soil.	100sq mt	60.00
2	Earth work in excavation by mechanical means (Hydraulic excavator) / manual means in over areas foundation trenches or drains (not exceeding 1.5 m in width or 10 Sqm on plan) including dressing of sides and ramming of bottoms, lift up to 1.5 m, including getting out the excavated soil and disposal of surplus excavated soil as directed, within a lead of 50 m.		
	All kinds of soil.	Cum	10.00
3	Filling available excavated earth (excluding rock) in trenches, plinth, sides of foundations etc. in layers not exceeding 20cm in depth, consolidating each deposited layer by ramming and watering, lead up to 50 m and lift up to 1.5 m.	Cum.	10.00
	Supplying and filling in plinth with Hard muram/ Hard copra under floors including, watering, ramming consolidating and dressing complete	Cum	11.00
4	Providing and laying in position cement concrete of specified grade excluding the cost of centering and shuttering - All work up to plinth level :		
	M 10	Cum.	7.50
5	Providing and laying in position specified grade of reinforced cement concrete (with 20mm nominal size graded stone aggregate) excluding the cost of centering, shuttering, finishing and reinforcement - All work up to plinth level :		
	M 20 Nominal mix	Cum.	4.45
6	Centering and shuttering including strutting, propping etc. and removal of form for :		
	Foundations, footings, bases of columns, etc. for mass concrete up to plinth level.	Sqm	17.00
7	Walls (any thickness) including attached pilasters buttresses s, plinth beams and string courses etc. up to plinth level.	Sqm	39.00
8	Reinforcement for R.C.C. work including straightening, cutting, bending, placing in position and binding including cost of binding wire up to floor two level including all wastage etc. complete.		
	Thermo-Mechanically Treated bars.(TMT)	kilogra m	445.0 0
9	Cement concrete flooring 1:2:4 (1 cement : 2 sand : 4 graded stone aggregate) finished with a floating coat of neat cement including cement slurry, but excluding the cost of nosing of steps etc. complete.(Area of panels not exceeding 2 sqm)		

	40mm thick with 20mm nominal size stone aggregate.	Sqm	60.00
10	Providing and fixing ISI marked flush door shutters conforming to IS: 2202 (Part I) decorative type, core of block board construction with frame of 1st class hard wood and well matched teak 3 ply veneering with vertical grains or cross bands and face veneers on both faces of shutters.		
	35 mm thick including ISI marked Stainless Steel butt hinges with necessary screws.	Sqm	10.08
11	Providing and fixing ISI marked oxidized M.S. sliding door bolts with nuts and screws etc. complete :		
	300x16 mm	each	4
12	Providing and fixing ISI marked oxidized M.S. handles conforming to IS:4992 with necessary screws etc. complete :		
	125 mm	each	8.00
13	Providing and fixing ISI marked oxidized M.S. tower bolt black finish, (Barrel type) with necessary screws etc. complete :		
	150x10 mm	each	6.00
14	Providing and fixing M.S. grills of required pattern in frames of windows etc. with M.S. flats, square or round bars etc. all complete.		
	Fixed to steel windows by welding.	kg	18.00
15	Providing and fixing glazed shutters for doors, windows and clerestory windows using 4 mm thick float glass panes including back enameled ISI marked M.S butt hinges with necessary screws.		
	30 mm thick	Sqm	6.60
16	Providing and fixing pressed steel door frames confirming to IS: 4351 manufactured from commercial mild steel sheet of 1.25 mm thickness including hinges jamb, lock jamb, bead and if required angle threshold of mild steel angle of section 50x25mm, or base ties of 1.25mm pressed mild steel welded or rigidly fixed together by mechanical means, adjustable lugs with split end tail to each jamb including steel butt hinges 2.5mm thick with mortar guards, lock strike- plate and shock absorbers as specified and applying a coat of approved steel primer after pre-treatment of the surface as directed by Engineer-in-charge:		
	Single rebate (size, 80 mm x 50 mm)	metre	8.40
	Single rebate (size, 100 mm x 50 mm)	metre	1.80
	24.6	Sqm	75.84
	24.9	Sqm	166.20
	Making plinth protection 50mm thick of cement concrete grade M 10 over 75mm bed of dry metal ballast 40mm nominal size well rammed and consolidated and filled with sand including finishing the top smooth (with 20mm nominal size graded stone aggregate.)	Sqm	42.00

	40 mm thick stone flooring over 20 mm (average)thick base of cement mortar 1:5 (1 cement : 5 sand) including pointing with cement mortar 1:2 (1 cement : 2 sand) with an admixture of pigment to match the shade of stone. Red sand stone / White sand stone)		
	Rough chiseled dressed stone	Sqm	42.00
	Point wiring (excluding metallic switch box & sheet but including switches, sockets, lamp holders/ceiling roses etc) with 1.5 Sq. mm. PVC insulated cable FR with copper multi strand conductor ISI marked in concealed rigid P.V.C. conduit (HMS) ISI Marked of suitable size and 1.5 Sq. mm. PVC insulated copper earth continuity conductor of green colour inside conduit including painting etc. as required as per specification for :-		
	a) Short point	Each	10.00
	b) Medium point	Each	10.00
	c) Long point	Each	10.00
	<u>3 Pin 6 Amp socket outlet on Separate Board</u>		
	a) Medium point	Each	1.00
	b) Long point	Each	2.00
	<u>Call Bell / Buzzer Points</u>		
	a) Medium point	Each	1.00
	b) Long point	Each	1.00
	Point wiring (excluding metallic switch box & sheet but including switches, sockets) for 3 pin 6 Amp. Socket outlet point with 1.5 Sq. mm. PVC insulated cable FR with copper multi strand conductor ISI marked in concealed rigid P.V.C. conduit (HMS) ISI marked of suitable size and 1.5 Sq. mm. PVC insulated copper earth continuity conductor of green colour inside conduit with required materials as per specification on same board .	Each	5.00
	Wiring for circuit wiring with PVC insulated cable FR with copper multi strand conductor ISI marked in concealed rigid P.V.C. conduit (HMS) of ISI marked suitable size including painting etc. as required as per specification		
	a) 2x2.5 Sq.mm.	Metre	10.00
	b) 4x2.5 Sq.mm.	Metre	5.00
	c) 6x2.5 Sq.mm.	Metre	5.00
	d) 8x2.5 Sq.mm.	Metre	5.00

	Point wiring (excluding metallic switch box & sheet) for 3 Pin 16 Amp. Socket Outlet Point With 4 Sq. mm. PVC insulated cable FR with copper multi strand conductor ISI marked in Concealed rigid P.V.C. Conduit (HMS) ISI Marked of suitable size including painting etc. with 16 Amp. F.T. Switch & Socket / S.S. Combined 16 Amp. of ISI Marked and 4 Sq. mm. PVC insulated copper earth continuity conductor of green colour inside conduit as per specification for :-		
	On Separate Board		
	A. Short Point	Each	1.00
	B. Medium Point	Each	1.00
	C. Long Point	Each	2.00
	Supplying and fixing factory fabricated hot dip galvanized switch box for normal flush type accessories of minimum 1.2 mm (18 swg gauge) thickness with earth terminal stud with nut and washer, with 3 mm thick synthetic phenolic resin bonded laminated sheet conforming to grade P-I of IS:2036-1974 on surface / concealed including painting etc. as required as per specification:		
	MS Box 100 mm X 100 mm X60mm deep	Each	4.00
	MS Box 200 mm X 150 mm X 60 mm Deep	Each	2.00
	Supplying and drawing single core PVC insulated cable FR with copper multi strand conductor ISI marked in existing rigid conduit in surface or concealed as per specification.		
	1.5 Sq mm cable		
	1 X 1.5 sq mm	Metre	10.00
	2.5 Sq mm cable		
	1 X 2.5 sq mm	Metre	10.00
	Wiring for sub-mains with PVC insulated cable FR with copper multi strand conductor ISI marked in recessed / concealed rigid steel ISI marked conduit of suitable size(Conduit included) including connection painting etc ,as required as per specification		
	2 WIRE SUB-MAIN		
	6.0 sq mm cable in 25 mm conduit	Metre	5.00
	4 WIRE SUB-MAIN		
	6.0 sq mm cable in 25 mm conduit	Metre	5.00
	Supplying & fixing of ISI marked Porcelain Rewire able type fuse carrier & base unit of approved make & conforming to IS: 2086-1993		

16 Amps./415 Volts or 32 Amps/240 Volts	Each	2.00
Supplying of ISI Marked and approved make of Molded Case Circuit Breaker (MCCB) suitable for 3 phase,3 pole, 50 Hz, 415 Volts, AC supply with respective interrupting capacity (KA) at 415 Volts cited against their range standard conforming to IS - 8828		
MCCB with Breaking Capacity 35 KA at 415 V		
Current Rating -160 Amps & Adjustable: 70% -100% thermal & 5-10 times magnetic setting	Each	2.00
Supplying of ISI Marked and accepted standard of Miniature Circuit Breaker (MCB) of 'C' series suitable for 240/415 Volts, 50 Cycle , 10 kA Value AC supply confirming to IS : 8828 : 1996, IEC : 60898 :2002 but without enclosures :-		
SINGLE POLE (SP)		
6 Amp to 32 Amp Rating	Each	2.00
FOR TRIPLE POLE & NEUTRAL(TPN)		
6 Amp to 32 Amp Rating	Each	2.00
Supply of approved make powder coated sheet steel encloser SPN MCB DB inclusive of Bus bar, Neutral bar, Earth bar & two earth terminals etc. complete as per IS:13032(exclusive of MCB & isolator)-		
6 way double door	Each	1.00
8 way double door	Each	1.00
Supplying of approved make TPN MCB DB Metal Double Door with provision for FP MCB/Isolator/RCCB/RCBO as incomer and SP MCBs as outgoing inclusive of Bus bar, Neutral bar, Earth bar & two earth terminals etc. complete as per IS:13032(exclusive of MCB & isolator):		
4 way (4+12)	Each	1.00
Fixing of MCB /MCCB/ Isolator		
Fixing of MCB / Isolator SP/DP in sheet steel enclosure as required as per accepted practice, including mounting on bus bar and cable connection etc. complete (Labour only)	Each	10.00
Supplying and fixing as per specification Call bell / buzzer of approved make with necessary materials complete.		
Ding Dong bell	Each	2.00
Supplying and fixing in position incandescent lamp of approved make as per IS specification		

60 Watt 250 Volt	Each	2.00
Supplying, Fixing and Testing of Fluorescent Tube rod ISI marked of approved make as required as per specification		
4' X 40 Watt	Each	4.00
Supplying, erection and testing of approved make electric Ceiling fan of double ball bearing complete with standard down rod, canopy, hanging shackle, Aluminum blades, without regulator, A.C. 230-250 volts including connections with all necessary material complete as required confirming to IS :374/1979 with up to date amendments.		
Ceiling Fan (Energy Saver 50 W)-1200 mm Sweep	Each	2.00
Supplying, fixing and testing of approved make fluorescent tube fitting, rust resistant, stove enameled paint, box type channel with cover, complete with electronic ballast (HF) complete duly wired (without tube rod) as per specification & fixing as below:		
a) 1x36/40 watt		
l) Fixing on wall/Ceiling on wooden round block with 'J' hook / Anchor hole fasteners/hollow bow with rod fixed in Ceiling and other necessary materials including connections etc. and as required.	Each	4.00
Supplying, fixing and testing of approved make bulk head luminaries consisting of pressure die aluminum housing lamp holder, prismatic glass cover, rubber gasket and wire guard, deluxe type, including fixing on wall as required, with necessary material complete Fitting	Each	1.00
Providing and fixing wooden board of suitable size (maximum 12" X 18") for fixing of house service Metre with necessary materials and connection testing etc. complete as per specification :		
Single phase Metre	Each	1.00
Earthing with G.I. Earth plate 600mm X 600mm X 6mm thick including accessories and providing masonry encloser in cement mortar, cover plate having locking arrangement on the top and G.I. watering pipe 20mm dia 2.7 Metre long etc. (but without charcoal or coke and salt) complete as required.	Each	1.00

Add Extra for using salt and charcoal / coke for G.I. Plate or Copper plate earth electrode as required including excavation & refilling.	Each	1.00
Supplying and laying 25mm X 5mm G.I. strip at 0.5 Metre below ground level as strip earth electrode including soldering etc. as required.	metre	3.80
Providing and fixing earthing arrangement with 38.1mm dia 2.5 Metre long galvanized iron pipe electrode including packing of charcoal powder and salt as per specification watering pipe 19mm dia G.I. Connection etc. complete with refilling the pit as required, but excluding the excavation of earth pit.	Each	1.00
Supplying and laying G.I. earth lead duly installed on wall or in G.I. Pipe including connections etc. complete as required.		
13 sq mm (4 mm dia)	Metre	10.00
Supplying & installing G.I. Pipe for protection of underground cable fixed on wall/support/in trench/fixd between two rigid existing support of wall/beam for erection of ceiling Fan/down rod for stiff pendent for light luminaries /fan/protective for earthing, lightning conductor down strip/overhead service line/for submer cable or centrifugal pump for water supply with necessary iron clamp coupler, bend, te, elbow, nuts and bolts etc. complete in an approved manner as required to complete the job excluding cost of excavation/dismantling & other finished masonry Item complete.		
For 'B' Class pipe ISI Marked (IS-1161-68)		
15mm	Metre	10.00
Supplying and drawing guard wire/earth wire/bearer wire 13mm ² (4mm. Dia) G.I. including stringing, binding at existing insulators or brackets, jointing, jump ring, connecting etc. as required and clearing of obstacles (if any)	Km.	0.10

(AS REFERRED TO IN PARA 2 & 12 OF DTENDER)

GENERAL SPECIFICATIONS OF ITEMS OF WORK TO BE EXECUTED

Name of Work : Construction of **Soil Library Building and faculty rooms in agriculture college Gwalior using Prefabricated Technology with "continuous PU Sandwich Panel" or "Solid cement board foam concrete Sandwich Panel** "based on concept drawing including water supply, sanitary fitting & electrification **at various places in Madhya Pradesh.**

(A) Objective :-

- 1 RVSQVV Gwalior intends to take up works of Building Construction. The purpose of construction **Soil Library Building and faculty rooms in agriculture college Gwalior using Prefabricated Technology with "continuous PU Sandwich Panel" or "Solid cement board foam concrete Sandwich Panel** with such special building techniques is to build these building in a possible shortest time and put to use at the earliest.

(B) General Specification & Requirement of the New Structure:

1. Architectural planning of building prepared by the Department is to be taken into consideration by the bidder. Reduction in carpet area or change in planning will not be permitted.
- 2 Bidder will prepare design & structural plan complying to Architect Plan provided by the RVSQVV & suiting to their own product of prefab technique.
- 3 All structural members separately and as a whole for each unit should be designed complying Latest IS Codal provisions; and standards and good Engineering Practice & get it sanctioned from RVSQVV. Necessary Soil investigation work at all the sites shall be carried out by the bidder as a part of this work. Bidder will submit in detail work Methodology related to their production of units, transporting to site, erection & executing finishing items like flooring, plumbing, sanitation etc. (which are shown in the Madhya Pradesh Public Works Department drawings), including handing over of the units.
- 4 Necessary testing of materials/product units shall be done by the bidder at their own cost.
- 5 The bidder shall be required to substantiate the offer with certificates for such works actually executed satisfactory during Past three year by the firms.
- 6 Prefab structure shall have to be fire resistant.
- 7 The Total height of room (Building) shall be minimum 3.30 mt from flooring level.
- 8 The Prefab structure shall be such that it will maintain ideal room temperature for human life for all seasons.
- 9 The plinth height shall be minimum 60 cm from respective ground level. or AS directed by engineer in charge.
- 10 A terrace tank of the approved PVC product of 1000 Liters capacity is to be provided with water supply network to Bath / W.C. Drainage disposal arrangement with PVC pipes, traps, chambers etc. to be provided as directed by Engineer – In – Charge.

(C) BUILDING REQUIREMENT :

- 1 Carpet area of building as per detail architect drawing (consider carpet area and planning as per architect drawing attached) to be adhered to.

- 2 Wall thickness to be kept as per bidders own structural design.
- 3 Reinforcement Steel shall be **TMT fe415** or per structural design be fitting to the relevant IS Code & cement shall be OPC 43 grade only.
- 4 Grade of concrete as per structural design be fitting to the relevant IS code.
- 5 All water supply and drainage Network for internal building shall be of GI pipe as approved by Madhya Pradesh Public Works Department.
- 6 Necessary Water proofing treatment if required shall be provided.
- 7 Internal paint shall be two coats of white wash / colour wash / distemper plastic paint as specified paint of approved make & shade and external paint shall be acrylic emulsion paint & Apex of approved make.
- 8 Foundation design should be done considering one more floor Likely to be provided in future for different buildings.

(D) BRIEF TECHNICAL SPECIFICATIONS:

- 1 Design and construction of the building shall be carried out as per latest relevant BIS specifications in general and following specifications particular:
IS 456 - 2000 Code of practice for plain and reinforced concrete.
IS 1343 – 1980 Code of practice for prestressed concrete.
IS 11447 – 1985 Code of practice for construction with large panel prefabricates.
- 2 Concrete shall be of minimum M20 grade for RCC work.
- 3 Concrete shall be form finished and no plaster shall be applied.
- 4 SBC of soil shall be considered as per National Building Code at 600mm below ground level.
- 5 All the finishing items shall be carried out as per tender specifications and approved by department

(as referred to in Para 6.2 of DNIT)
MANDATORY TESTS AND FREQUENCY THEREOF

List of Mandatory Tests

Material	Test	Relevant IS code of testing	Field laboratory test	Minimum quantity of material work for carrying out test	Frequency of testing
Sand	a. Silt Content	IS: 2386 Part- I	Field	20 cum	Every 20 cum or part thereof or more frequency as decided by the Engineer in charge.
	b. Partical size distribution	IS. 2386 Part-1	Field	20 cum	Every 20 cum or part thereof or more frequency as decided by the Engineer in charge.
	C. Bulking of sand	IS. 2386 Part-III	Field	20 cum	----- do-----
Stone Aggregate	a. Percentage of soft or deleterious material	IS 2306 Part-II	Generally visual inspection laboratory test where required by the engineer in charge or so specified.	-	As required by Engineer-in Charge
	b. Partical size distribution	IS 2386 Part -I	Field	45 cum	For every 45 cum or part thereof or as decided by the Engineer in charge
	c. 10% Fine value	IS 2386 Part- IV	Laboratory	45 Cum	Initial test and subsequent test as and when required by Engineer in charge.
	d. Aggregate impact value of loss Angles abrasion value	IS 2386 Part - IV	Laboratory	45 Cum	As above
Cement concrete or reinforced cement concrete (not leaner than M-15)	Slump Test	IS 1199	Field	15 cum	15 cum or part thereof or more frequency as required by engineer in charge
Reinforced cement concrete	Compressive Strength Test	IS 456	Field	15 cum in slab, 5 cum on columns	15 cum or part thereof, or more frequency as required by engineer in charge
Steel	a. Tensile strength	IS 1608	Laboratory	20 tonne	Every 20 tonne of part thereof confirming to IS 1786-1985
	b. Bend test	IS 1599	--do--	--do--	--do--
Cement	a. Initial and final setting time by vicat apparatus	IS 403	Field	10 tonne	IS 4031-1988
	b. Test for determination of consistency				

Timber	a. Moisture contents	IS : 11215	(by moisture rates Field/ Laboratory test in case of dispute as required by Engineer in- charge)	1 Cum	Every one cum or part thereof
Flush Door	1. Emersion Test	IS : 2191 & 22021	Laboratory	20 Shutters	As per sampling and testing specified in clause 9.8.3
Aluminum door or windows fitting	Thickness of anodic coating	IS : 1948	----- do -----	It the cost of fitting exceeds Rs. 3000/-	Rs. 5000/- or part there of required by the Engineer-in-charge
Mortic locks	Testing of Spring		----- do -----	50 Nos.	100 of part thereof
Terrace tiles	1. Transverse strength 2. Water absorption 3. Abrasion test	IS : 1237	----- do -----	2000 Nos.	2000 Tiles or part thereof
White glazed	1. Water absorption 2. Crazing test 3. Impact strength test	Laboratory	3000 Nos	3000 Nos	Part thereof
	Compressive strength of cement

ANNEXURE - E

(as referred to in Para 7.3 of DNIT)

CONTRACTORS LABOUR REGULATIONS

The contractor shall pay not less than fair wages to laborers engaged by him in the work.

Explanation:

- (a) "Fair wages" means wages whether for time or piece work as notified on the date of inviting tenders and where such wages have not been so notified the wages prescribed by the Public Works Department for the division in which the work is done.
- (b) The contractor shall, notwithstanding the provisions of any contract to the contrary cause to be paid a fair wage to laborers indirectly engaged on the work including any labour engaged by his sub contractor in connection with the said work as if laborers had been immediately employed by him.
- (c) In respect of all labour directly or indirectly employed on the works for the performance of his contract the contractor shall comply with or cause to be complied with the Labour Act in force.
- (d) The Executive Engineer, RVSKVV shall have the right to deduct from the money due to the contractor any sum required estimated to be required for making good the loss suffered by a worker by reason of non-fulfillment of the conditions of the contract for the benefit of the workers non-payment of wages or of deductions made from their wages which are not justified by their terms of the contract or non-observance of regulation.
- (e) The contractor shall be primarily liable for all payments to be made under and for the observance of the regulations aforesaid without prejudice to his right to claim indemnity from his sub contractor.
- (f) The regulations aforesaid shall be deemed to be part of this contract and any breach thereof shall be deemed to be a breach of this contract.
- (g) The contractor shall obtain a valid license under the Contractor Labour Regulation and Abolition Act, 1970 in force and rules made there-under by the competent authority from time to time before commencement of work and continue to have valid licenses until the completion of the work.

Any failure to fulfill this requirement shall attract the penal provisions of this contract arising out of the resulted non-execution of the work assigned to the contractor.

ANNEXURE - F

(as referred to in Para 10 of DNIT)

Technical Personnel

The contractor shall employ the following technical staff during the execution of work.

Position	Minimum Qualification	Number		
		For work (package) costing upto 50 lacs.	For work (package) costing 100.00 lacs.	For work (package) costing above 100 lacs.
Graduate Engineer	BE (Civil)	-	01	01
Field Engineer	Diploma (Civil Engineering)	02	02	04

- 1- The contractor shall have to indicate the names of the key personnel at the time of submission of tender. Replacement of key personnel shall ordinarily be not permitted. However, the Engineer-in-charge may approve as a special case any proposed replacement of these personnel only if their qualifications, abilities and relevant experience are in conformity with the requirements indicated above.
- 2- If the Engineer-in-charge asks the contractor to remove a person who is a member of the contractor's staff or his workforce stating the reasons, the contractor shall ensure that the Division Gwalior person leaves the site within seven days and has no connection with the present work under the contract.
- 3- In case the contractor fails to employ the requisite technical staff as aforesaid, he shall be liable to pay to the department a sum of Rs. 20,000 (Twenty Thousand only) for each month of default in case of any person not deployed on the work.
- 4- Continuous absence of key personnel of the contractor for more than three months on the contract work will entail to rescind the contract.
- 5- The contractor shall employ Technical Staff during the execution of work. The Technical staff should be available at site whenever required by the Engineer-in-Charge to take instructions.
- 6- The contractor should give the names and details of the Graduate Engineer/Diploma Holder Engineer whom he intends to employ or who is under his employment on the work at the time of commencement of the work. The Contractor should give a certificate that the Engineer/Diploma Holder Engineer is exclusively in his employment.
- 7- It is not necessary for the contractor's partner in the case of firm/company who is himself an Engineer/Sub-Engineer to employ another Engineer/Sub-Engineer for the supervision of work.
- 8- The retired Assistant Engineer who is holding a Diploma may be treated at par with the Graduate Engineer for the aforesaid operation. In case the contractor fails to employ the technical staff as aforesaid, he shall be liable to pay the penalty.

Name Address Occupation of Profession Remarks

:: CONDITIONS OF CONTRACT AGREEMENT::

1. The person(s) whose tender may be accepted (hereinafter called the contractor(s) shall within Ten days of the receipt by him/them of the Notification of the acceptance of his/their tender, deposit with the Executive Engineer, RVSKVV sum equal to 5% of the sum specified in the tender either in case or Govt. Securities endorsed to the Executive Engineer, RVSKVV(it deposited for more than 60 months).All damages to be borne or other sums of money payable by the contractors(s) to the Governor of Madhya Pradesh under the terms of this Contract may be deducted from or paid by the sale of sufficient part of his/their security deposit or from the interest arising there from or from any sums which may be due or may become due to the contractor(s) by the Governor of the M.P. on any account whatsoever. In the event of his/their security deposit being reduced by reason of any deduction or sale as aforesaid or by reason of forfeiture under Clause 13, the contractor(s) shall within ten days thereafter make good in cash or Govt. securities endorsed as aforesaid any such or sums which may be necessary to make the amount of deposit equal to 5% of the sum specified in the tender.

The Contractor(s) is/are to provide every thing of every sort and kind (with the exception noted in the schedule attached) which may be necessary and requisite for the due and proper execution of the several works included in the contract according to the true intent and meaning of the drawings and specifications taken together, which are to be signed by Executive Engineer, Madhya Pradesh PWD, PIU (hereinafter called the Executive Engineer) and the contractor(s) whether the same may not or may not be particularly described in the specification or shown on the drawings, provided that the same are reasonably and obviously to be inferred there from and in case of any discrepancy between the drawings and the specification the Executive Engineer is to decide which shall be followed.

2. The Contractor(s) is/are to set out the whole of the works in conjunction with an officer to be deputed by the Executive Engineer, RVSKVV and during the progress of the works to amend on the requisition of the Executive Engineer any error which may arise therein and provide all the necessary labour and materials for so doing. The contractor(s) is/are to provide all plant, labour and materials (with the exceptions noted in the schedules attached) which may be necessary and requisite for the works. All materials and workmanship are to be the best of their respective kinds. The contractor(s) is/are to leave to work in all respects clean and perfect at the completion thereof.

2(A) Deleted

3. Complete copies of the drawings and specification signed by the Executive Engineer are to be furnished by him to the contractor(s) for his/their own use, and the same or copies thereof are to be kept on site incharge of the Contractor(s) agent who is to be constantly kept on the ground by the contractor(s) and to whom the instructions can be given by the Executive Engineer The Contractor(s) is/are not to sublet the works or any part thereof without the consent in writing of the Executive Engineer
4. The Executive Engineer is to have at all times access to the works which are to be entirely under his control. He may require the contractor(s) to dismiss any person in the Contractor's(s') employ upon the works who may be

incompetent or misconduct himself and contractor(s) is/are forth with to comply with such requirements.

- 5.** The Contractor(s) is/are not to vary or deviate from the drawings or specification or execute any extra work of any kind whatsoever unless upon the authority of Executive Engineer to be sufficiently shown by any order in writing by any plan or drawings expressly given and signed by him as an extra or variation or by any subsequent written approval signed by him. In case of daily labour all vouchers for the same are to be delivered to the Executive Engineer or the Officer In-Charge at least during the week following that in which the work may have been done and only such day work is to be allowed for as such as may have been authorized by the Executive Engineer to be so done unless the work cannot from its character be properly measured and valued. The drawings in respect of which this contract is drawn up provide for a minimum depth of foundations for good soil. Any extra depth will be measured as an extra when the foundation trenches have been opened up and will be paid for in addition to the sum contracted for the completed work.
- 6.** Any authority given by the Executive Engineer for any alternation or additions in or to works is not to vitiate the contract, but all additions, omission or variations made in carrying out the work to be measured and valued and certified by the Executive Engineer and added to or deducted from the amount of the contract, as the case may be, at rates in force in the Public Works Department. In such cases in which rates do not exist, the Vice Chancellor, RVSKVV, will fix the rates to be paid.
- 7.** All work and materials brought and left upon the ground by the Contractor(s) or his/their orders for the purpose of forming part of the works are to be considered to be the property of the Governor of M.P. and the same are not to be removed or taken away by the Contractor(s) or any other person without the special license and consent in writing of the Executive Engineer but the Governor of M.P. is not to be in any way answerable for any loss or damage which may happen to or in respect of any such work or materials either by the same being lost or stolen or injured by weather or otherwise.
- 8.** The Executive Engineer has full power to require the removal from the premises of all materials which in his opinion are not in accordance with the specification and in case of default the Executive Engineer is to be at liberty to employ other persons to remove the same without being answerable or accountable for any loss or damage that may happen or arise to such materials,. The Executive Engineer is also to have full power to require other proper materials to be substituted and in case of default the Executive Engineer may cause the same to be supplied and all costs which may attend such removal and substitution are to be borne by the contractor(s).
- 9.** If in the opinion of the Executive Engineer any of the works are executed with improper materials or defective workmanship, the contractor(s) is / are when required by the Executive Engineer forth with to re-execute the same and to substitute proper materials and workmanship and in case of default of the contractor(s) is so doing within a week the Executive Engineer is to have full power to employ other persons to re-execute the work and the cost thereof shall be borne by the contractor(s).
- 10.** Any defects, shrinkage or other faults which may appear within 6 months, from the completion of the building arising out of defective or improper materials or workmanship are upon the direction of the Executive Engineer to be amended and made good by the contractor(s) at his/their own cost unless the Executive Engineer shall decide that he/they ought to be paid for the same and in case of default the Governor of M.P. may recover from the Contractor(s) the cost of making good the works.

11. From the commencement of the works to the completion of the same they are to be under the contractor's charge. The contractor(s) is/are to be held responsible for and to make good all injuries damages and repairs occasioned or rendered necessary to the same by fire or other causes and they are to hold the Governor of M.P. harmless from any claims for injuries to persons or for structural damage to property happening from any neglect default, want of proper care or misconduct on the part of the contractor(s) or of any one in his/their employ during the execution of the work.
12. The Executive Engineer is to have full power to send workmen upon the premises to execute fittings and other works not included in the contract for whose operation the contractor(s)is/are to afford every reasonable facility during ordinary working hours, provided that such operations shall be carried on in such a manner as not to impede the progress of the work included in the contract but the contractor(s) is/are not to be responsible for any damage which may happen to or be occasioned by any such fittings or other works.
13. The works comprised in this tender are to be commenced immediately upon receipt of the order of commencement given in writing by the Executive Engineer when possession of the site can be had. The whole work including all such additions and variations as aforesaid (but excluding such if any as may have been postponed by an order from the Executive Engineer) shall be completed in every respect within 20 days including rainy season from the date of issue of the aforesaid order and if from any cause whatever other than will full obstruction or defaults, on the part of Executive Engineer or his staff and except as hereinafter provided the whole of such work shall not be finished to the satisfaction of the Executive Engineer within the said period, the contractor(s) shall forfeit to the Governor of Madhya Pradesh. from his/their security deposit by way of ascertained and liquidated damages for each defaults and not by way of penalty, the sum of **Rs.* 10000/- Rs. Ten Thousand Rs only**) per day for every completed day of such default provided that the entire amount of damages to be forfeited under the provisions of this clause shall not exceed 10% on the estimated value of the whole work as shown in the tender.

Provided, nevertheless that if the contractor(s) shall be of the opinion that he is/they are entitled to any extension of time on account of the works being altered, varied or added to or on account of any delay by reason of any inclement whether or causes not under the control of the contractor(s) in consequence of orders to that effect from the Executive Engineer himself which orders, the Executive Engineer is hereby empowered to give them any or either of such cases it shall be competent for the Executive Engineer by an order in writing to extend the aforesaid period for final completion by such period or periods as he shall deem reasonable and the contractor(s) is/are to complete the works within such extended period or periods as aforesaid. Provided that the contractor(s) shall not be entitled to any extension of time unless he/they shall within 3 days after the happening of the event in respect of which he/they shall consider himself/themselves entitled to any extension give to the Executive Engineer written notice of such claim to any extension of time and of the ground or grounds and of the amount thereof unless in any case the Executive Engineer shall in his direction dispense with such notice and certify for an extension of time. Nevertheless and in case of any extension of time, the aforesaid provisions with amount for damages in default of due completion shall apply in case of non-completion of the works within the extended time. Provided that the Contractor(s) shall not be

entitled to any extension of time in respect of the extra work involved in extra depth of foundation mentioned in Clause 5.

***Note :- The sum will vary according to the requirements of the case but shall no case exceed half percent of the total value of the contract**

- 14.** If the contractor(s) shall become bankrupt or compound with or make any assignment for the benefit of his/their creditors or shall suspend or delay the performance of his/their part of the contract (Except on account of causes mentioned in clause 13 or in consequence of not having proper instructions for which the contractor(s) shall have duly applied.) The Executive Engineer may give to the Contractor(s) or his/their assignee or trustee, as the case may be, notice requiring the work to be proceeded with and in case of default on the part of the contractor(s) or his/their assignee or trustee for a period of 7 days, it shall be lawful for the Executive Engineer to enter upon and take possession of the works and employ any other person or persons to carry on and complete the same and to authorize him or them to use the plant, materials and property of the contractor(s) upon the works and the costs and the charges incurred in any way in carrying on and completing the said works are to be paid to the Executive Engineer by the Contractor(s). The Executive Engineer shall be the final authority to determine the amount spent to complete the unfinished work. The certificate of Executive Engineer as to the Value of the balance work done shall be final and conclusive against the contractor.
- 15.** The Contractor(s) shall be paid on the completion of each calendar month commencing from the Date of work order a sum of 90% of the total value of work done (till that month) since the last payment according to the certificate of Executive Engineer When the works shall be completed the contractor(s) is/are to be entitled to receive one moiety of the amount remaining due according to the best estimate of the same that can be made and the contractor(s) is/are to be entitled to receive the balance of all moneys due or payable to him/them under or by virtue of the contract within 06 months from the completion of the works. Provided always that no final or other certificate is to cover or relieve the contractor(s) from his/their liability under the provision of clause 10 whether or not the same is notified by the Executive Engineer at the time or subsequently to the granting of any such certificate.
- 16.** A certificate of the Executive Engineer or an award of the referee hereinafter referred to, as the case may be showing the final balance due or payable to the contractor(s) is to be conclusive evidence of the works having been duly completed and that the contractor(s) is/are entitled to receive payment of the final balance, but without prejudice to the liability of the contractor(s) under provision of clause 10.
- 17.** Provided always that in case any question, dispute of difference shall arise between the Executive Engineer and the contractor(s) as to what additions, if any, ought in fairness to be made to the amount of the contract by reason of the works being delayed through no fault of the contractor(s) or by reason or on account of any directions or requisitions of the Executive Engineer involving increased cost to the contractor(s) beyond the cost properly attending the carrying out of the contract according to the true intent and meaning of the signed drawings and specification, or as to the works having been duly completed or as to the construction of these presents or as to any other matter or thing arising under out of this contract, except as to matters left during the progress of the works to the sole decision or

requisition of the Executive Engineer under Clauses No.1 4,8 and 9, or in case the contractor(s) shall be dissatisfied with any certificate of the Executive Engineer under clause 6 or under the provision in Clause13 or in case he shall with hold or not give any certificate to which he/they may be entitled, or as to the right of the contractor(s) to receive any compensation or as to the amount of such compensation payable to him/them under clause 18, then such question, dispute or difference or such certificate of the value or matter which should be certified as the case may be, is to be from time to time submitted to the Arbitration of a Tribunal composed of one Arbitrator nominated by the Contractor(s) and one Arbitrator nominated by Executive Engineer /VC,RVSKVV. In the event of disagreement between the Arbitrator on any matter or matters, such matter or matters shall be referred to an umpire to be nominated by the VC,RVSKVV and the award of such arbitrator or the umpire is to be final and where necessary to be equivalent to a certificate of the Executive Engineer and the contractor(s) is/are to be paid accordingly.

- 18.** If at any time before or after the commencement of the work, Governor of M.P. shall for any reason whatsoever, -
- a. Cause Alterations, Omissions or Variation in the drawings and specification involving any curtailment of the works as originally contemplated; OR
 - b. Not required the whole of work as specified in the tender to be carried out,

The Contractor(s) shall have no claim to any payment or compensation whatsoever on account of any profit or advantage which he/they might have derived from the execution of the work in full as specified in the tender but which he/they did not derive in consequence of the curtailment of the works by reason of alterations, omissions or variation or in consequence of the full amount of the work not having been carried out.

But the Contractor(s) shall be entitled to compensation for any loss sustained by him/them by reason of his/their having purchased or procured any materials or entered into any engagements or made any advances to labour or taken any other preliminary or incidental measures on account of or with a view to the execution of the works or the performance of the contract.
